# How to Participate!

- **Handout:** EIA Designations scoring rubric
  - Click the + to expand the window
  - Click the file to download the PDF
- **Chat box** for comments and conversation
  - Click the + to expand the window
  - Select “All – Entire Audience” from the dropdown at the bottom
  - Type your comment in the box with “[Type message here]”
- **Questions** for presenters
  - Click the + to expand the window
  - Enter your question and send it to the Organizers
- **Raise your hand** during the discussion at the end to be unmuted and contribute verbally!

# Overview

- Current state of learning outcomes: The shifting terrain
- Transparency Research: The NILOA Transparency Framework
- Putting it all together: The Excellence in Assessment Designations

# Who's Here?

- What is your role on campus?
  - Faculty
  - Staff
  - Administrator
  - Assessment Coordinator
  - Another role – comment in the chat!

# Who's Here?

- Which best describes your campus?
  - 2-year public institution
  - 2-year private institution
  - 4-year public institution
  - 4-year private institution

# What do you already know?

- How familiar are you with the EIA designations?
  - I've heard it mentioned, but don't know much beyond that
  - Someone on my campus told me to look into how we can use it
  - I reviewed the website, but want more details
  - We have used or plan to use the EIA rubric as a self-study
  - We plan to apply for the Designation

# Value

- Institutions of higher education are increasingly asked to show the value of attending, i.e. impact in relation to cost; employment
- Public and policy makers want assurance of the quality of higher education
- Regional accreditors are asking institutions to show evidence of student learning and instances of use
- Improvement of teaching and learning and enhanced transparency and saliency of education for students

# Changing Field of Assessment

# National Institute for Learning Outcomes Assessment

Making Learning Outcomes Usable & Transparent

## NILOA

**NILOA's mission is to discover and disseminate effective use of assessment data to strengthen undergraduate education and support institutions in their assessment efforts.**

### Laying the Foundations: Early Findings from the New Mathways Project

Tue, May 19, 2015 - 08:00 am  
Elizabeth Z. Rutschow and John Diamond for MDRC

Given that approximately 50 to 70 percent of community college students require developmental math courses and only a third of those students actually complete them, the Mathways Project looks to offer an alternative way to ensure these students succeed. For example, the Mathways Project aligns math content to specific fields of study and teaches at an accelerated pace to help students stay on track.

### Outcomes-Based Education Initiatives in Ontario Postsecondary Education: Case Studies

Mon, May 18, 2015 - 08:00 am  
Qin Liu in Higher Education Quality Council of Ontario (HEQCO)

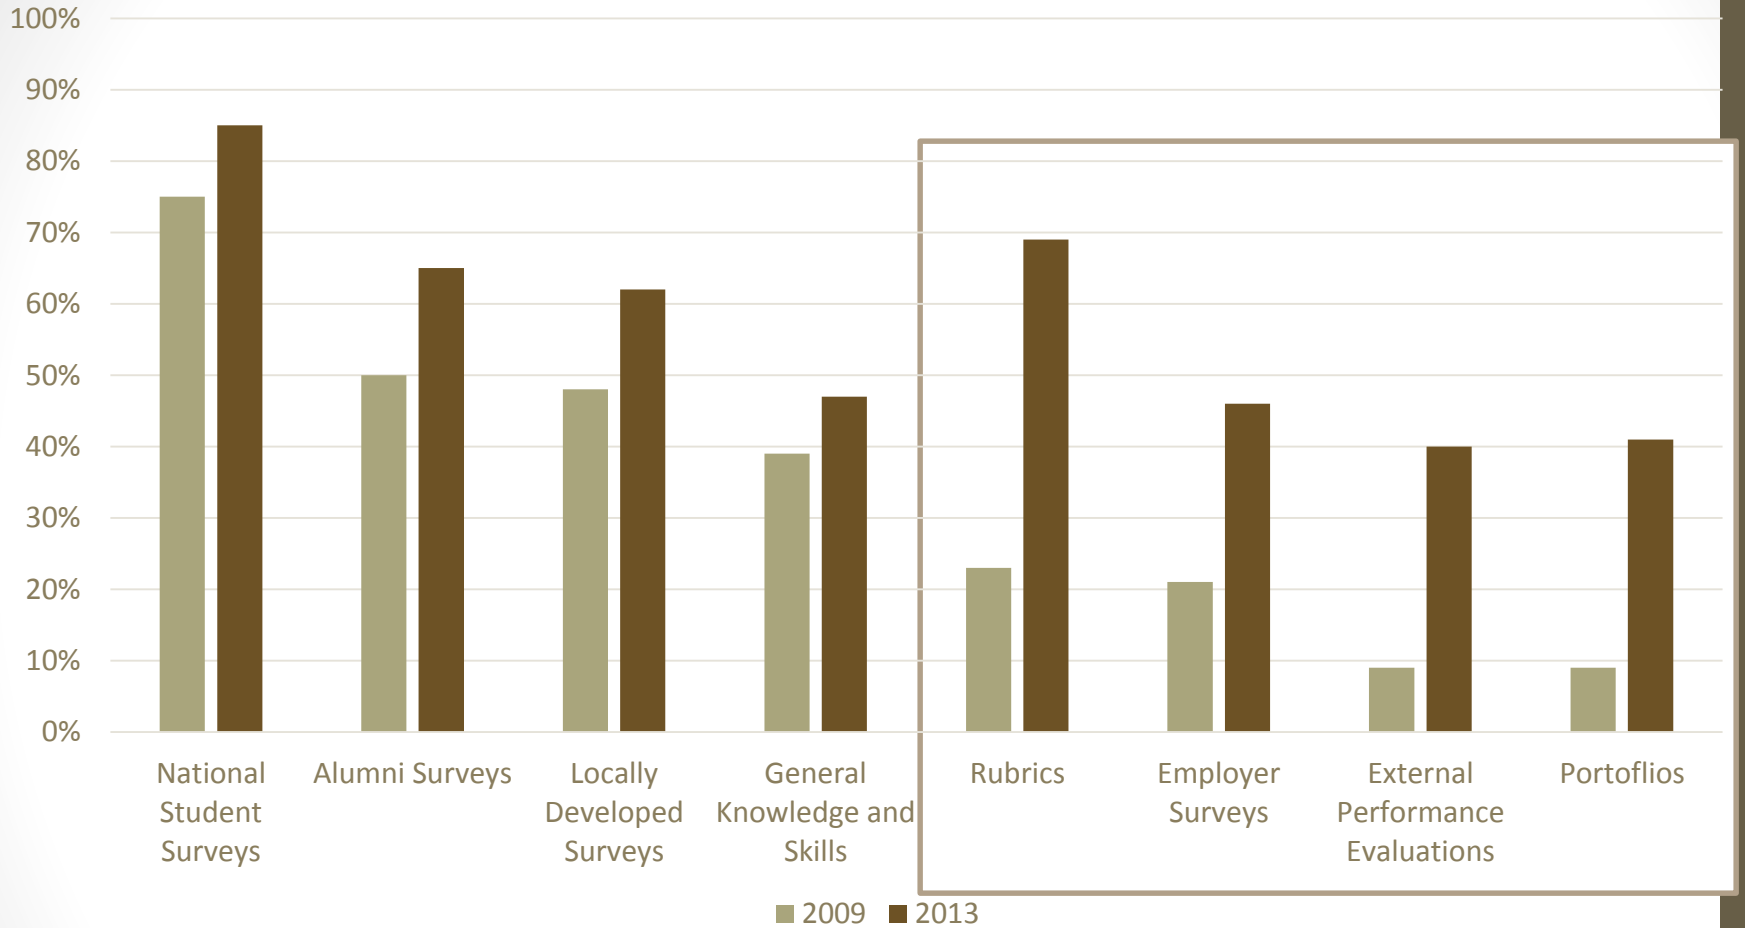

Faculty buy-in and support is key for outcomes-based education (OBE). Institutions looking to implement OBE policies should look to engage faculty and provide support, such as guidance during program reviews or facilitating conversations about learning outcomes.

### Student Outcomes

Fri, May 15, 2015 - 08:00 am  
Kristina Cowan in American Council on Education's The Presidency

Colleges and Universities know more now than they ever did about student outcomes and the impact their degrees have on graduates' lives. It is increasingly important to share the results and use them to improve policy.

# Change Over Time

Institutions are not the only ones modifying approaches to considering student learning

# Voluntary System of Accountability

- Initiative by public universities to supply straightforward, comparable information on the undergraduate student experience through a common web report – the College Portrait

The screenshot shows the College Portrait website interface. At the top left is the logo for College Portrait, Voluntary System of Accountability. To the right of the logo are links for "Skip To Content", "Accessibility", and "Admin Login". Below the logo is a navigation bar with links for "Home", "Compare", "Contact", "About", "Search", and "Resources". The main content area features a heading "Your best education picture." followed by a paragraph of text. Below this is a "Get Started" section with a call to action: "Click the picture on the right that best matches your reason for visiting to get started! We'll help you find the information you need for the colleges and universities you're interested in." At the bottom of this section are four icons representing different user groups: "STUDENTS" (a person at a desk), "FAMILIES" (a family of four), "ADVISORS" (two people talking), and "POLICY MAKERS" (two people looking at a chart). At the very bottom of the page are two buttons: "Quick Find" and "About the College Portrait".

# (R)evolution of VSA SLO Reporting Requirements

- Initial Pilot: 2008-2012
- Evaluation & Expansion: 2012-2015
- Adoption of NILOA Transparency Framework
- Announcement of Excellence in Assessment Designations
  - National recognition of campuses using best assessment practices
  - Based on NILOA Transparency Framework
  - Sponsored by VSA, NILOA, and AAC&U

# How We Typically See Assessment for External Accountability

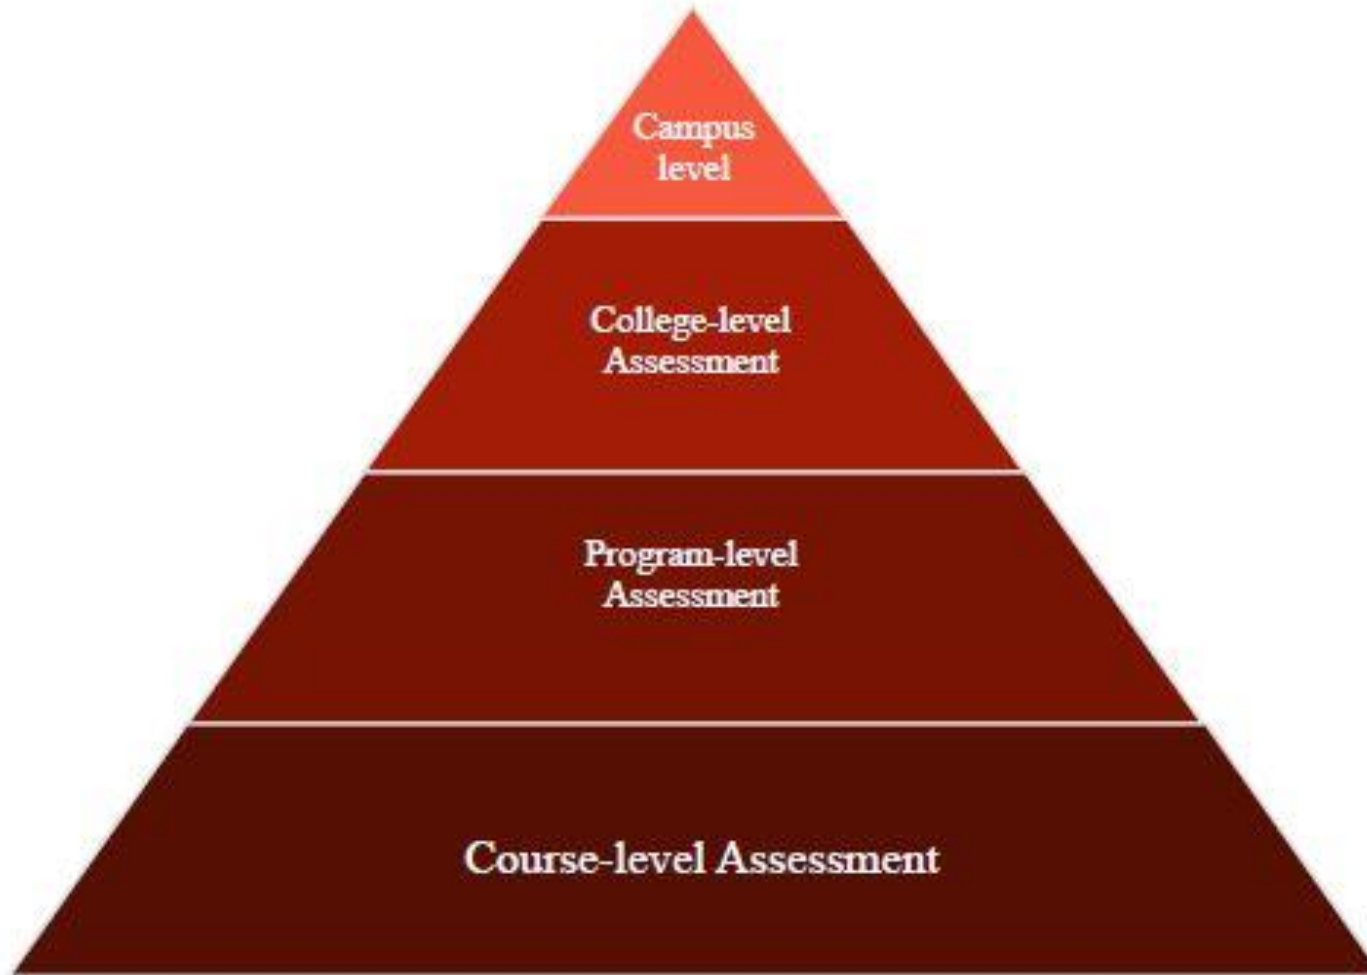

**Institutional Accreditation**

**Program  
Accreditation**

**General  
Education  
Assessment**

# Really, That's Upside Down

# How?

- Intentional integration
  - Evidence from student work is key foundation
    - Classroom, campus programming
    - Lots of data – grades, self-report
  - Program assessment builds on classroom, etc.
    - Aggregated student data
    - Supplemented by key assessments
  - Fewer key assessments needed at higher levels
- Common or comparable outcomes
  - Applied critical thinking looks different by discipline, but assessment results can be compared
  - Standards without standardization 😊

# What's happening on your campus?

- Which of the following assessment activities does your campus engage in?
  - General education assessment at the end of sophomore year
  - General education assessment during the senior year (e.g., flag courses or specific outcomes in capstone courses tied to general education)
  - Aligning course and program level outcomes
  - Aligning program and institution level outcomes
  - Other – comment in chat!

# Excellence in Assessment Designations

- National recognition
  - Similar to Carnegie Community Engagement Classification
  - Open to all institutions – public, private, 2-year & 4-year
- Campus-level assessment
  - Vertically integrated – builds from classroom assessment
  - Horizontally inclusive – intentional inclusion of student affairs, external stakeholders

# Bringing it together

The EIA Designations bring together the current state of the art of learning outcomes assessment with shifts in the field of transparency of student learning.

# What stories are you telling?

- Which of the following does your campus effectively communicate information on?
  - Desired learning outcomes
  - Process of assessing student learning
  - Why you are assessing student learning the way you are
  - Evidence of student learning
  - Use of student learning evidence

# Who are you telling them to?

- To whom do you communicate this information?
  - Faculty
  - Staff
  - Students / Alumni
  - Accreditors
  - Other – comment in chat!

# Transparency Finding

Institutions more frequently report assessment results internally than to external audiences.

# Transparency: Current Climate

- More information to a widening variety of audiences
- Accountability to consumers, policy makers
- Ratings and rankings, federal scorecards
- Comparability
- Quality Assurance
- Disclosure

About “getting it out there” for “whomever is interested”

# Transparency Defined

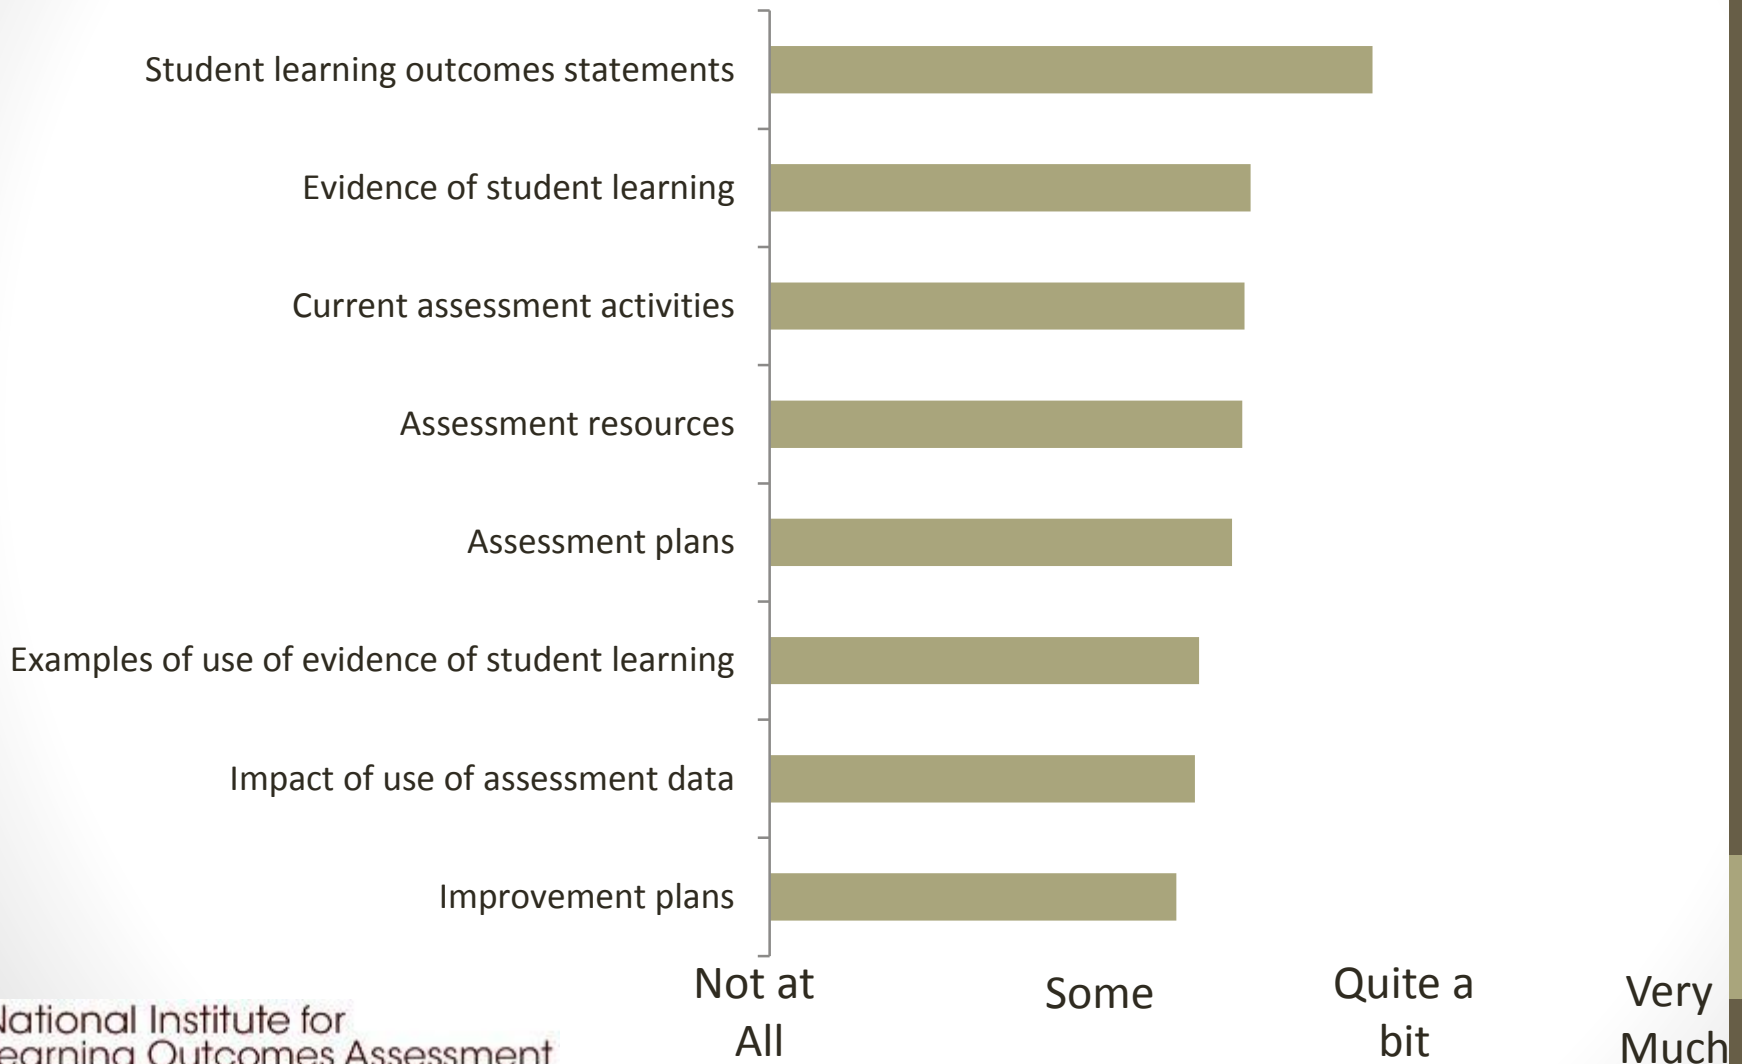

- Transparent Process
- Transparent Information
- Organizational Transparency (openness, trust)

Jankowski & Provezis (2012)

- Making meaningful, understandable information about student learning and institutional performance readily available to internal and external audiences.

# What is publically available?

# What are the most effective means for sharing assessment results within the institution?

# Reporting Status Quo

- Data dump, long reports, insider language
- More information isn't always better
- Reactive not proactive

We haven't told our story well.

# Communication is key

More information is not always better –  
help stakeholders make sense of what  
the evidence means for the institution  
and student learning

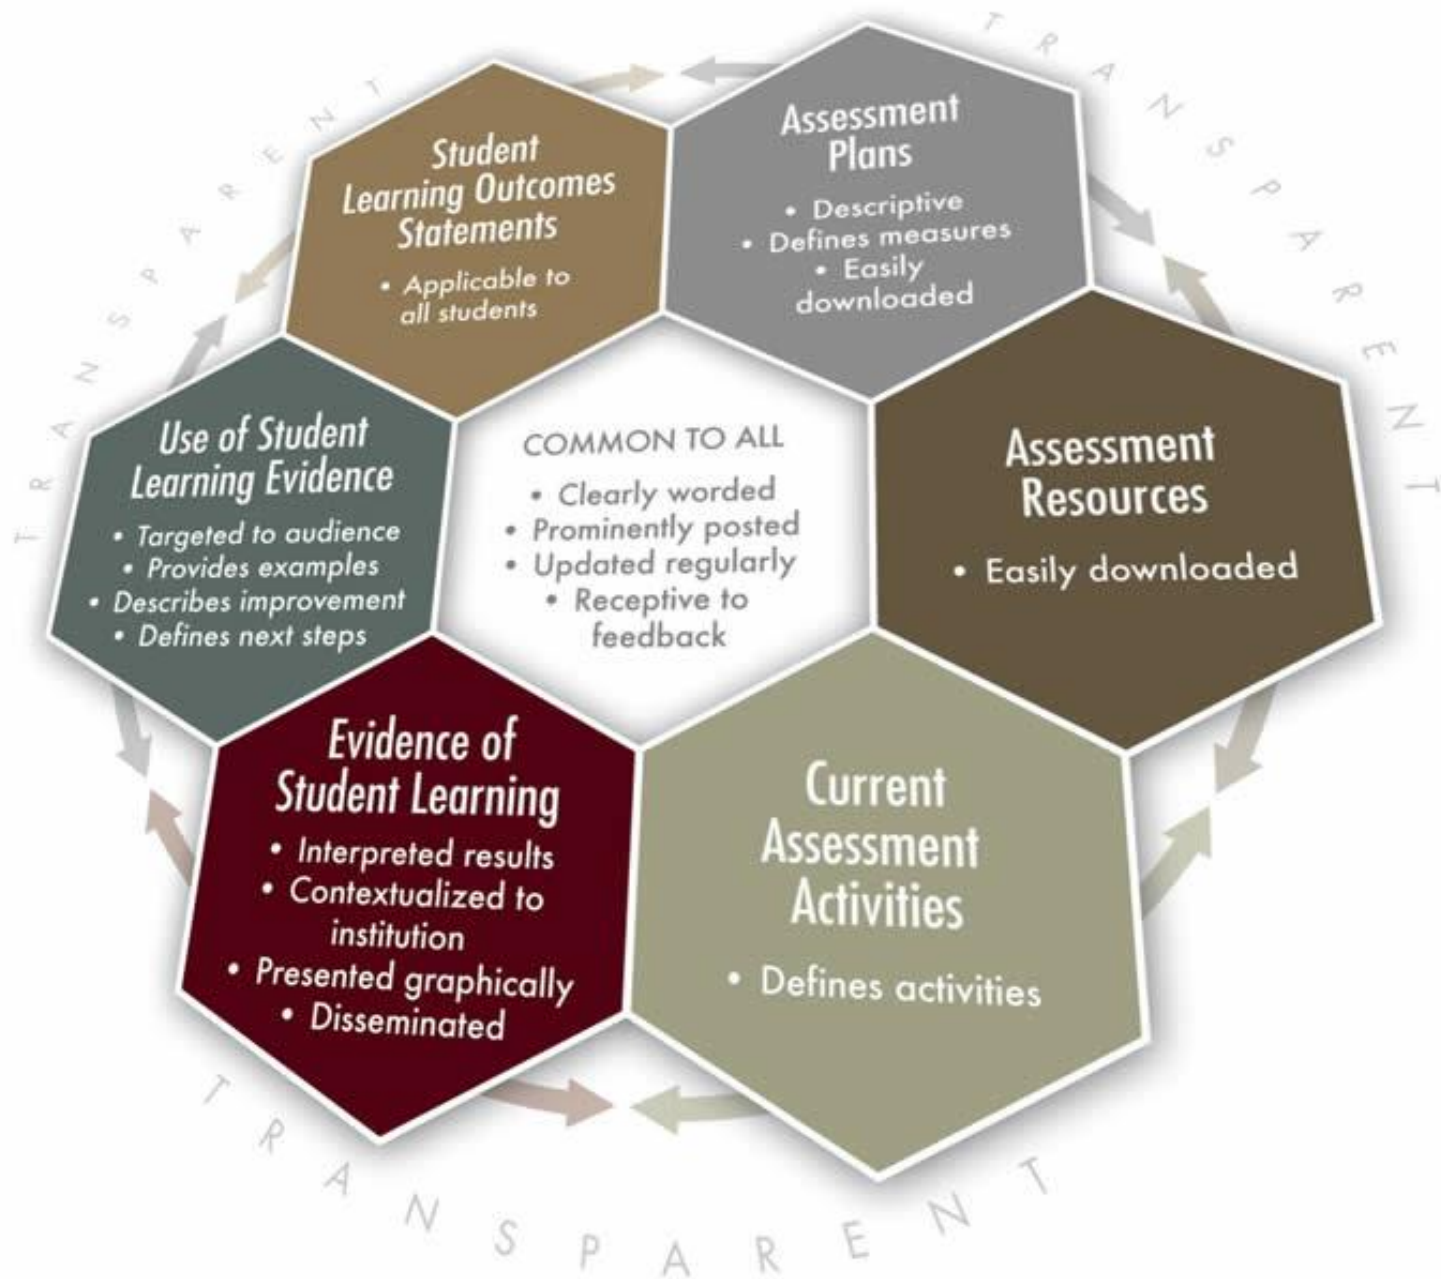

# What if instead of...

and talks a  
way for the future  
**communicate**  
his new play  
of fame

# Central Tenets

- Clarity
  - No jargon
  - Interpretation & application of outcomes
- Easy to find
- Relevant & timely

# Student Learning Outcomes Statements

What do you want students to know and be able to do when they get their degrees?

Complete a program?

- Clearly expressed and understandable by multiple audiences
- Prominently posted or linked in multiple places across the website
- Reviewed and updated when needed

# Student Learning Outcomes Statements

### General Education Core: Assessment Overview

Program assessment is essential to ensure that our programs meet professional standards, continue to improve toward academic excellence, strengthen our various higher learning accreditation requirements, and best serve our students. Student mastery of the baccalaureate General Education Core competencies is to be achieved and demonstrated in the senior capstone course.

#### Undergraduate Core Competencies

##### Critical Thinking

Analysis, synthesis, and evaluation of information and ideas from multiple perspectives

##### Knowledge Integration

Fusion of information and concepts from multiple disciplines

##### Effective Communication

Competence in oral, visual, and written language; use of resources and technology for communication

##### Social Responsibility

Application of knowledge and skills gained from the undergraduate experience for the advancement of a diverse society

**Information Literacy** is an essential skill that supports each of the competencies and must permeate every component of the General Education Core. Information literacy is a set of abilities requiring individuals to recognize when information is needed and have the ability to locate, evaluate, and effectively use the information. It enables learners to master content and extend their investigations, become more self-directed, and assume greater control over their learning. ([Information Literacy Rubric](#))

#### Rubrics

The General Education Coordinating Committee has transformed the definitions of the four Baccalaureate

# Assessment Plans

Campus plans for gathering evidence of student learning might include institution-wide or program specific approaches that convey how student learning will be assessed, the data collection tools and approaches that will be used, and the timeline for implementation.

- How are you going to find out what your students know and are able to do?
- Descriptive
- Inclusive

- Mission and SLOs
- Strategic Plan
- Program Reviews
- Professional Development Day
- School of Education

## Overview

A perspective of assessment at CLU is portrayed in CLU's Assessment System diagram:

The diagram shows how:

- We structure data collection and gather direct and indirect evidence of educational effectiveness at various levels of the University;
- Communication and reflection occur through meetings and events;
- This reflection leads to informed decision making and planning; and
- This action returns the cycle to begin the system again.

# Assessment Resources

Assessment resources encompass information or training provided to faculty and staff to help them understand, develop, implement, communicate, and use evidence of student learning.

- What information, support, professional development, or resources do you need to implement your assessment plans?
- Language
- Downloadable
- Prominently posted

### Assessment Vocabulary

Communication about assessment and student learning outcomes sometimes uses multiple terms to refer to the same concept, or the same term with different meanings. A list of commonly used vocabulary terms and definitions related to assessing student learning outcomes is helpful so that everyone is able to speak a common language.

The terms used in this dictionary were selected from regional accreditation and state assessment guidelines; from selected presentations at the Assessment Forums of the American Association for Higher Education; from a group of policy makers, government officials, assessment practitioners, testing company representatives; and from Center for Assessment and Research Studies faculty and graduate students at James Madison University.

#### K-State Student Learning Outcomes

### Assessment matters

High-quality assessment is the first step in improving student learning. Through the use of both direct and indirect sources of evidence of student performance, assessments guide collective actions for improvements in teaching, academic supports, and curricula.

### A culture of assessment

The Office of Assessment believes in a cooperative approach focused on student-centered learning. Within a culture of trust and shared responsibility, faculty and student life professionals—with participation from students, administrators, alumni and K-State constituents—develop and implement ongoing and systematic assessment strategies to understand what, how much, and how students learn in order to continuously improve learning outcomes. To assist faculty, the Office of Assessment provides support, resources, and training to help department and unit faculty develop and implement assessment practices tailored to their own needs. Read more about the culture of assessment at K-State.

#### Current Initiatives

Participate in the AAC&U VALUE Rubric Pilot Project.

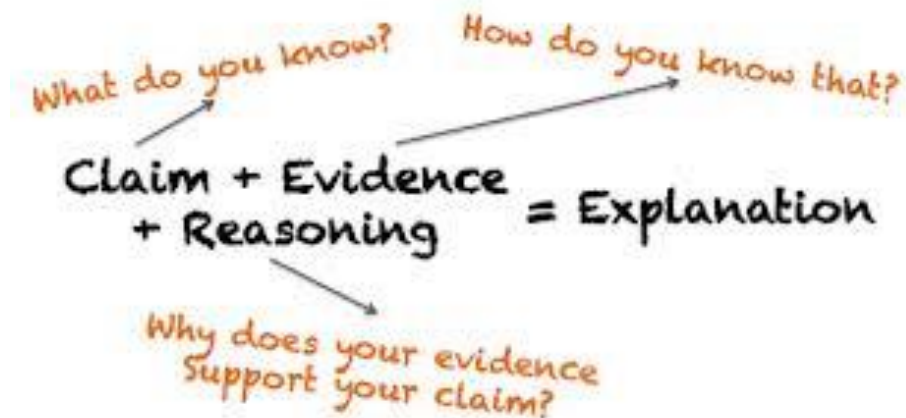

Visualize assessment data with Infographics

# Evidence of Student Learning

Evidence of student learning includes results of assessment activities. This may include evidence of indirect (e.g. surveys) and direct (e.g. portfolio) student learning as well as institutional performance indicators (e.g. licensure pass rate).

- What evidence do you have that students are learning what you want them to learn?
- Explained
- Contextualized

CAPELLA UNIVERSITY

Learning & Career Outcomes

HOME

BEHIND THE NUMBERS

OUTCOMES

STUDENT SATISFACTION

## EXPECT MORE than a degree

*At Capella University, we don't just say our programs are relevant to our graduates' careers—we prove it.*

Our academic programs are built on specific, measurable expectations, or **learning outcomes** that deliver the skills you need to succeed in your field. We also publish **career outcomes**—research on how our graduates are performing professionally.

LEARN HOW OUTCOMES IMPROVE EDUCATION

PLAY VIDEO >>

### HOW WE CREATE AND MEASURE LEARNING OUTCOMES

We work with faculty and employers to learn what's needed to succeed, which defines learning outcomes for each program; courses are designed to deliver those outcomes.

During the final stages of the program, instructors assess students' demonstrated proficiency of the learning outcomes and record each student's achievement.

We then publish outcome reports, showing our students' demonstrated proficiency. We use the reports to continuously improve our programs.

At graduation and after, we survey our alumni about their satisfaction with Capella and their professional achievements, and publish the findings.

### WHAT DOES THIS MEAN FOR YOU?

Our Learning and Career Outcomes helps you before, during, and after your program.

- You know what learning outcomes each of our programs delivers, so you can make an informed choice about enrolling at Capella
- You'll understand why you're taking each course, what you should expect to learn, and how it applies to your degree and career
- When you graduate, you can move ahead professionally with confidence, advanced skills, and new abilities

 DSA ASSESSMENT  
 DSA ASSESSMENT REPORTS  
 ASSESSMENT AT MARQUETTE  
 INSTITUTIONAL RESEARCH & ANALYSIS

**Division of Student Affairs : Your Voice**

## Your Voice Matters

The information students provide us on surveys and feedback forms is invaluable. We care what you think and want to help make the most of your Marquette experience. There are a number of important surveys out this semester. Maybe you just completed one. When you get that invitation to participate, we hope you'll consider taking part. When you say it, we listen!

### What does Marquette do with all that information from the surveys I complete?

Departments in the [Division of Student Affairs](#) and other co-curricular units collect information regularly and use it to make improvements to programs and services. The scrolling box at the right describes just a handful of the many changes that the voices from you and the students who came before you have helped bring about.

Want to know more? Executive summary reports from some of the larger surveys can be found [here](#). If you'd like to know how a specific department uses information from students in making decisions, contact any member of the [Student Affairs Assessment Team](#).

Even MUSG collects data regularly to improve its programs and better represent your voice. Here are some summaries from recent larger surveys they've conducted: [2013](#), [2011](#), [2009](#), [2007](#), and a [special advising survey in 2007](#).

### What about assessing the effectiveness of my major and academic experiences?

The faculty for every major at Marquette have articulated a set of goals they have for what students will learn through their courses (called "learning

**You said: I want to see Space Jam during New Student Orientation week! (Source: Class of 2015 Facebook Group Survey) We listened: Space Jam was chosen as the outdoor movie, open to the entire campus community, during Orientation week.**

NILOA  
 Transparency Framework

Program Review and Assessment Committee (PRAC)

The Program Review and Assessment Committee (PRAC) is composed of representatives of a broad range of academic and support units. The activities of the committee are supported by the Office of the Vice Chancellor for Learning and Institutional Improvement.

# EIA Designations

- Application completed via campus self-study
  - Expectation for diverse campus application team
  - NILOA Transparency Framework is foundation
- Evaluation by faculty assessment experts
  - Rubric available
  - Criteria are rigorous, but reasonable
- Two awards
  - **Excellence**
    - Strong leadership and commitment to building (or re-building) culture of integrated assessment practices
  - **Sustained Excellence**
    - Leadership and commitment sustained or evolved over a period of at least 5 years

# How to Participate!

- **Handout:** EIA Designations scoring rubric
  - Click the + to expand the window
  - Click the file to download the PDF
- **Chat box** for comments and conversation
  - Click the + to expand the window
  - Select “All – Entire Audience” from the dropdown at the bottom
  - Type your comment in the box with “[Type message here]”
