The Assignment

Introduction to Computer Information Systems Professor Pereira Spring 2014

Final Research Project: Information Technology/Business Research PowerPoint and Presentation

Critical Dates

By Friday, 2/21: Review the three videos located within the Library Resource Tab in Blackboard. These videos cover the following subjects: 1) how to define and develop topics and keywords for your final project, 2) where to look for sources, and how to evaluate them for credibility, and 3) how to create citations for your final PowerPoint presentation and reference pages.

Monday, 3/17: Library Research Session (in our regular classroom) with a Fitchburg State University Reference Librarian.

By Monday, 3/24: Review topic proposal with instructor and receive approval.

By Friday, 4/18: Review preliminary PowerPoint and Research Log with instructor. (*Not required, but strongly suggested*)

By Friday, 4/25: Submit Final Research Project PowerPoint and Research Log under the Assignments tab in Blackboard.

Friday or Monday, 4/25 and 4/28: Present in class.

<u>Assignment Description</u>

PowerPoint and presentation. For this project, you will research an information technology (IT) topic, related to business, that you find interesting and you think will be of interest to the class. Drawing on this research, you will develop and present a PowerPoint.

Your PowerPoint must be at least 20 slides, and it should begin with an introductory slide that clearly explains your research topic thesis statement. I have posted a few exemplars, from previous semesters, within the Final Project Tab in Blackboard. See the grading rubric at the end of this document for more information on how I will grade your PowerPoint document and presentation.

Research log. In addition, you will document your search strategy by maintaining a Research Log. Within this research log you will describe your initial research topic thesis statement, key search terms, and synonyms/related terms. Next, you will document the process you followed as you searched for relevant sources. Finally, you will list the sources you selected

for use in your PowerPoint and your revised research thesis statement (based on your search results).

See an example of a completed research log at the end of this document. I have attached a blank research log template under the Final Project Tab in Blackboard. Download and use that template. In addition, see the grading rubric at the end of this document for more information on how I will grade your Research Log.

<u>Topics/Thesis Examples</u>

- Business use of social networks can lead to increased customer satisfaction
- Social media is effective for marketing presidential campaigns
- Watson has both positive and negative implications for business
- Technical strategies can be used to encourage ethical business practices
- Current trends in educational (or hospitality, healthcare, etc.) technology will lead to major business process changes
- Increased use of mobile technology, including broadband service and mobile payment processing, allows small businesses to be flexible to respond to customer needs while still reducing overhead costs.

Required Research

This is a research project. As such, you must provide detailed evidence obtained through research to support your conclusions.

You must cite a minimum of five sources for this PowerPoint. Internet-based sources do not count towards the minimum requirement of five sources. By "internet-based," I mean sources that exist only on the Internet and not in print. For example, do not use Wikipedia as a source. However, you may use it as a starting place. This is because, in most cases, there are sources listed at the bottom of Wikipedia pages that can be considered reliable academic sources.

You may use books and articles from scholarly journals, trade publications, business magazines, computer magazines, news magazines, and newspapers as sources that are found online, or through online databases. This is a link to the FSU Library's databases page: http://www.fitchburgstate.edu/academics/library/find/research-databases/

You may find (1) Business Source Premier and (2) Computers and Applied Sciences Complete particularly useful for research for this project.

Citation and Style

Whenever you draw information from a source in your PowerPoint, you must cite that source in the text of the PowerPoint slide, in addition to a final "References" slide. This includes when you paraphrase, summarize, or quote directly from a source.

You should use the APA format for your in-text and reference citations. You should view the "How to Create Citations for your Final PowerPoint Presentation and Reference Pages" video located within the Library Resource Tab in Blackboard to learn how to format your in-text and reference citations in the APA format. You can also use the *Purdue Owl* (http://owl.english.purdue.edu/owl/resource/560/01/) or FSU Library (http://bcs.bedfordstmartins.com/resdoc5e/RES5e_ch09_s1-0001.html) Web site to find information on APA rules.

Additional Help

If after reviewing the videos located within the Library Resources Tab in Blackboard and attending the Library Research Session that will be held on 3/17/2014 in our class you still need help with selecting a research topic/research thesis, conducting searches, deciding whether a source is reliable, and/or citing, I suggest you ask a librarian.

<u>Student Research Project and PowerPoint Presentation Grading Rubric (total maximum points possible 50)</u>

Research Log EXAMPLE

Please use the following worksheet to document your search strategies and results for your research project. If you need more room, insert additional rows into the table.

Preliminary Research Topic Thesis	Key Terms	Synonyms/Related Terms
Statement		
Smart use of technology can support	technology;	hardware/software
entrepreneurs to grow their business.	entrepreneurs; business	applications; specific
	growth	product?
		social networking
		small business; start-ups
		success; profit; customers

Search #	Search Terms	Database Used	# of Results	Reflection	Next Steps
1	Technology entrepreneurs business growth	Google (basic)	50,500,000 websites	Some ads. Lots of articles from entrepreneur.com. Not sure if the results are really focused on how to specifically use technology to support growth.	Keep the key terms "technology" and "business growth," but substitute "small business" for "entrepreneurs" and add "customers"
2	Technology small business growth customers	Google (basic)	308,000,000 websites	No ads, but some clearly commercial sites. Many of the articles mention "mobile technology." Other possible terms: "profitability" "productivity."	Add the key terms suggested by the results of this search.
3	All: customers growth Phrase: mobile technology Any: "small business" entrepreneur	Google (advanced)	21,900,000 websites	No ads, but some sites related to products or business consulting. Good results for pages from e-magazines or business sites. Many results seem to focus on	Add "social networking" and limit to only .edu to avoid sites related to products and business consulting.

4	All: customers growth Phrase: "mobile technology" "social networking" Any: "small business" entrepreneur Limit: .edu	Google (advanced)	27,800 websites	efficiency. Found one good site to use as source. No ads. Much more sophisticated websites. Topics include "mobile broadband" and "emerging technologies." Found article discussing Senate hearings on broadband that talk specifically about how mobile technologies help minority and rural business owners.	Still too many results, need to narrow. Try searching in a library database devoted to business topics.
5	Mobile technology AND small business AND customers Limit: Full Text	Business Source Premier (advanced)	2 articles	Not many results and they focus mostly on wireless companies, not on small business impact.	Remove the key term "customers."
6	Mobile technology AND small business Limit: Full Text	Business Source Premier (advanced)	42 articles	Good articles, but focus more on how businesses as a market for mobile tech, less on how they can use it to drive business. One article on use of mobile payments good. Other terms to try: mobile commerce, innovation adoption, technological innovations.	Try adding some of the additional key terms.
7	Social networking AND small business AND	Business Source Premier (advanced)	30 articles	Articles more focused on using social networking as a marketing	Focus key terms on "mobile" apps.
